- In these 20 years Water for Kids have transformed the lives of nearly **HALF A MILLION PEOPLE.**
- We have provided **water, sanitation and hygiene education** to over **154 COMMUNITIES** in **9 COUNTRIES.**
- We have raised **over half a million pounds** in the last ten years and
- **86 pence in every pound** goes directly to provide water and sanitation.

Water for Kids has improved the health and education of some of the most vulnerable people. We have reduced poverty and, above all, saved lives. I would like to thank all of our supporters for their contributions in the last 20 years, without which, this would not have been made possible.

## Zambia

### Koona Western Zambia

Water for Kids has provided safe water for the first time to 639 people in Koona, Western Zambia. More people will move here now, because there is water. The villagers have built a substantial barrier to keep animals away, so the water will not be contaminated.

## The latest news from Iganga, Uganda

Muzamiru & Gideon, part of our WfK team in Iganga, have helped the local state primary school Nawampendo. Nawampendo had no safe water as their borehole was broken and 500 pupils were about to take exams, with the nearest source of water being 1.7km away. Muz said: - *'These exams are very important in the life of these learners because they determine their future in life. So I thought it necessary to help them get their borehole repaired as a gift from WfK'*. Well done Muz.
